You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

### Chronograph: Basic function

**Example:**
1. **Start:** Press push-button A.
2. **Stop:** e.g. 70 mins & 20 sec following.
3. **Reset:** Timing is resumed.

*Following, the accumulation of the remaining measured time can be continued by pressing push-button B (Start / Stop, Reset / Stop, …).*

### Chronograph: Accumulated timing

**Example:**
1. **Start:** (start timing)
2. **Stop:** e.g. 20 min & 17 sec following.
3. **Making up the measured time:** (the chronograph hands are immediately advanced to the ongoing measured time).
4. **Reset:** The chronograph hands are returned to their zero positions.

*Following, the accumulation of the remaining measured time can be continued by pressing push-button B (Reset / Stop, Reset / Stop, …).*

### Chronograph: Intermediate or interval timing

**Example:**
1. **Start:** (start timing)
2. **Display interval:** e.g. 20 min & 17 sec following (stop background).
3. **Making up the measured time:** (the chronograph hands are immediately advanced to the ongoing measured time).
4. **Stop:** (Final time is displayed.)
5. **Reset:** The chronograph hands are returned to their zero positions.

*Following, further intervals or inter-mediates can be displayed by pressing push-button B (display interval / make-up measured time, …).*

### Setting the day, of the week (260) and time

**Example:**
1. Date: (11.05.15)
2. Pull out the crown to position III (the watch stops).
3. Turn the crown clockwise until the correct date appears.
4. Push the crown back into position II.

### Adjusting the chronograph hands to zero position

**Example:**
1. One or several chronograph hands are not in their correct zero positions and have to be adjusted (e.g. following a battery change).
2. Pull out the crown to position III (all chronograph hands are in their correct or incorrect zero position.)
3. Keep push-buttons A and B depressed simultaneously for at least 2 seconds.
4. The second counter hand rotates by 360° (correct mode is activated.)

### Setting the date (quick mode)

**Example:**
1. Date: (11.05.15)
2. Pull out the crown to position III (the watch stops).
3. Turn the crown anticlockwise until yesterday’s day of the week appears.
4. Push the crown back into position II.

### Setting the date, of the week (260) and time

**Example:**
1. Date: (11.05.15)
2. Pull out the crown to position III (the watch stops).
3. Turn the crown clockwise until the correct date appears.
4. Push the crown back into position II.

### Adjusting the chronograph hands to zero position

**Example:**
1. Date: (11.05.15)
2. Pull out the crown to position III.
3. Turn the crown anticlockwise until yesterday’s day of the week appears.
4. Push the crown back into position II.
